Jr. Engineer | MERN Stack | Full-Stack Web Developer

Self-motivated Jr. Software Engineer focused on the MERN Stack. Experienced in building responsive web applications and AI-powered tools that improve developer productivity. Proficient in JavaScript, React, and Node.js, with a track record of delivering clean UI/UX and robust backend logic. Dedicated to code quality, continuous learning, and scalable architecture.

SKILLS

AWS, CI/CD Automation, Docker, Express.js, FastAPI, Google Cloud Platform, JavaScript, MongoDB, Node.js, PostgreSQL, Python, React.js, REST API Design, SQL, TypeScript

EDUCATION

Senior Secondary Education

Govt. Senior Secondary School • 01/2022

Bachelor of Computer Applications in Computer Applications

Star Infotech IT College • Ajmer

WORK EXPERIENCE

Aigetai Private Limited • Patna • 02/2026 - 06/2026

Software Engineer

Developed an **AI-powered Customer Support CRM** with AI API integration for customer queries and support automation.

Built an **AI-assisted Inventory Management System** for an international client, including product, SKU, and inventory management.

PROJECTS

AI Power Reviewer

Developed an intelligent tool that automatically analyzes code for bugs and performance issues. Integrated with GitHub to provide instant feedback on pull requests. Focused on improving developer productivity and enforcing coding best practices.

AI Chatbot (Gemini-Powered)

Built a responsive real-time chat interface using JavaScript and REST APIs. Integrated Google Gemini 1.5 Flash to generate high-speed, intelligent AI responses. Engineered a seamless UI/UX with modern CSS for a fluid user experience.

AI Code Generator

Created a pure client-side web application for generating code snippets via AI. Designed a simple, intuitive UI using Bootstrap for mobile-first responsiveness. Optimized for performance by handling logic without the need for a backend server.

AI-Customer-Support

SupportAI is a full-stack, enterprise-grade AI Customer Support SaaS platform built with **Next.js 14 (App Router)**, **TypeScript**, **MongoDB**, **Mongoose**, **Tailwind CSS**, and **Google Gemini AI**.
